HIGHWAY PLAN GETS APPROVAL AT WASHINGTON

Drouth Territory To Get Relief Work At Once

ANOTHER PROMISE

Will Take Appeal to the President If Plan Blocked

Indications are that by the first of next week the drouth-relief road program will be under way in the Panhandle. At least, this was the promise made Monday in both Washington and Austin.

The drouth relief program was proposed in a meeting held in Amarillo last fall when appeal was made by the Panhandle for relief for the thousands of citizens who had been hit by the severe drouth. The President approved a special appropriation of \$8,900,000 for the Panhandle and the flood swept Valley territory. The program was not started owing to the fact that CWA came along, which offered jobs to practically all of the unemployed. But with the closing of CWA, the demand was again made that the special appropriation of last fall be set up for the Panhandle. A second meeting was called in Amarillo, and the demand renewed.

Senator Tom Connally and Congressman Marvin Jones were requested to ascertain what had become of the special appropriation, which the Austin relief office had denied ever receiving. Washington authorities announced some time ago that Austin had all of the authority necessary to start the special work. Highway officials made a special trip to Washington and full approval was made of the plan by which work would start in the Panhandle. State Engineer Gib Gilchrist came back from Washington by the way of Amarillo where he was to meet re-

Four Firsts Won By Students This Region of State

The Panhandle region of the Interscholastic League fared very well in the state meet held at Austin, according to W. E. Lockhart, director. Four first places were won.

Wesley Burnham of the Jowell school won first in the 3-R's. He brought to Randall county a big loving cup for his school and a gold medal for himself.

W. C. Barnard of Happy won first in the high hurdles. He won second place for his school in the regional meet recently held here with 16 points.

The one-act play from Pampa won first place. The coach was Ben Guill of this city.

Jimmie Galbreath of Lakeview won the rural girls' tennis match.

Mr. Lockhart states that every winning event was coached by an ex-student of W. T.

An Appreciation of the Clean Up Campaign

I wish to express my appreciation for the hearty co-operation manifest in the effort to clean up the cow pens. I am very happy to say we have more clean cow pens than we have ever had in the history of our town. A few dirty ones remain, which will be taken care of by the proper authorities.

Now that the cow pens are clean, keep them clean; which can only be done by piling up the droppings every morning and sprinkle lime on them.

I wish to compliment the city officials on the cleanliness of the alleys. May our slogan be "The Cleanest City on the Plains."

F. M. WILSON,
City Health Officer.

Clint Small Club For Panhandle is Organized Saturday

A number of friends of Clint C. Small met in Amarillo Saturday night and organized for a Panhandle Small for Governor Club. H. G. Hamrick is in charge of the Amarillo office which opened Monday.

Senator Small outlined to the meeting the situation as it is developing in other sections.

"The situation," he said is 10 times better than it was four years ago," when Senator Small came within a few thousand votes going into the run-off campaign. He mentioned the support already pledged him in Houston, Beaumont, San Antonio and many other points, where he was barely known in the other campaign.

Senator Small's service to the Panhandle and the state as a whole was emphasized by the different speakers, all of whom lauded his platform as "conservative, common-sense, practical policies."

"I am not going to promise the people the impossible," he said. "It is silly to tell the people that you will cut their taxes half in two and not impair their governmental functions. I want the utmost in economy, the most efficiency possible and all the necessary departments of government continued on a decent, sane and sensible basis."

Among those who spoke briefly were J. Roy Cullum, Wilbur C. Hawk, John J. Sheerin, Ray C. Johnson, Mr. Hamrick, Grover B. Hill, T. E. Johnson, Clyde Warwick and Fred Wortham of Canyon, E. T. Scott, Dr. R. L. Vineyard, Bob Stone, R. S. White, Jack Sears, W. L. Lofgrum, Joe Dooley, H. W. Galbraith, J. R. Barnhill, P. A. Quarles, Josh Kelly, Jay Taylor, C. E. Weymouth, Jim Oakes, Judge A. STAND WITH CLINT SMALL

If the people of the Panhandle had an excuse for voting for Clint Small four years ago, they have a real reason to vote for him this year.

The people of this section voted for him four years ago from sectional pride; in 1934 he has demonstrated the fact that he is no longer a sectional candidate, but a worthy son of Texas, a political leader of unusual ability, and one who will represent each and every section of the state.

A half dozen other candidates seek to be governor. None of them are better qualified to the leadership of the state than is Clint Small. Most of them are uttering vote catching phrases which mean nothing when analyzed by the intelligent voter.

Senator Small stands as the conservative candidate who offers no utopian plans, nor would he destroy existing institutions for the mere sake of making changes. He stands for law and order, and strict law enforcement which will protect the honest citizen against the dishonest. He is the conservative candidate who would build up the institutions of Texas rather than destroy them.

Senator Small is sure of a place in the second primary if given a liberal support from his neighbors and friends of West Texas. He has a wonderful following in other sections of the state, which is increasing daily. Now is the time for West Texas to back Senator Small and elect a man Governor who understands our needs, and who will bend every effort to bring back a wave of prosperity.

The printing code has been fully approved by President Roosevelt and the prices for the industry made effective. General Johnson

states that the printing code was one of the most complicated he has handled owing to the intricate questions involved in printing. In adopting the code, buyers of printing closely scrutinized the prices recommended by the code authorities in order that the industry should not take too long a profit from the buyers. Now that a uniform price has been recommended the users of printing may feel sure that they will receive a fair price, based upon accurate information as to the cost of production. There is no use of shopping around for cheaper prices. This has not been true in the past, as too many printers used the hit and miss method of calculation. A heavy penalty is provided for violation of the code prices. Most of the major industries are now under codes, and fair prices have been established. One sure road to recovery is open when all lines of business are making a profit, rather than losing money under cut throat methods. The President undertook a stupendous job in attempting to regulate prices in this country, but this stabilization will mean much to the people as a whole, and lead the way back to prosperity.

A war is declared upon stray dogs in Canyon. They are destroying the beauty spots on the campus of W. T. as well as on the lawns of many homes. On one lawn 7 dogs were congregated Sunday, none of which had license tags. They were doing plenty damage to the flowers. Many citizens are determined that the beauty spots which they have built at a great expense in time and labor shall not be destroyed by a bunch of stray dogs. Those who have dogs should see to it that they have a collar and license tag. This is sort of a badge of honor for the dog that some one cares enough for it to want it to continue to live. Stray dogs have no place in the life of a community.

Have you driven around Canyon and noted the many beauty spots? Only a few days ago, it seems, there was hardly a green thing in Canyon. It was most desolate looking. But the rains came, and warm weather followed, bringing out the flowers, shrubbery, grass and trees in a most wonderful manner. There is no place on earth which brightens up so quickly as does the Panhandle in spring. The critics of this section may say that we have only two seasons, winter and summer, but nevertheless, no period is so grand as the

short spring which is enjoyed in the Panhandle.

The men of Canyon have been talking about a Clean-Up Campaign for several weeks, but it took the women of the town to start a campaign of action. The fact that Tuesday was the designated day for cleaning up the town does not mean that the cleaning up not done then is unnecessary. Canyon has the reputation of being one of the cleanest towns on the Plains. Thousands of visitors are passing through here every month on their way to the Palo Duro State Park. Let's see to it that this reputation is adequately maintained by a thoroughly clean town.

More bootleg liquor is being sold than legally distilled liquor. Some

of the most ardent anti-prohibitionists have become disgusted at the manner in which the repeal of the 18th amendment has failed to regulate liquor. Crime has continued to thrive and increase in spite of the predictions that repeal would solve all of the national ailments.

The United States annually licenses more civil pilots than practically all of the European nations combined. Commercial aviation is increasing in this country. This does not particularly please our European friends who have failed to meet their obligations.

The Memphis Democrat is now a daily publication. Many of the larger weekly newspapers of the Panhandle have entered the daily field during the past year.

4,729 MILES ON A TOTAL OF FIVE QUARTS OF OIL!

Here is the winner! —the car that covered 4,729 miles at fifty miles an hour, lubricated with New and Improved Conoco Germ Processed Motor Oil.

THE "HIDDEN QUART" PRINCIPLE OF PENETRATIVE LUBRICATION PROVES GREATLY SUPERIOR IN COMPETITION WITH FIVE NATIONALLY KNOWN MOTOR OILS!

CONOCO has a New and Improved Germ Processed Motor Oil. Its many advantages were so evident to us, that we arranged with the Contest Board, American Automobile Association, to test five other widely advertised and nationally known motor oils along with Conoco's new and improved oil in a daring "Destruction Test." By letting the results speak for themselves, we are able to present to America's motoring public for the first time proved facts of superiority, not empty claims.

These six oils, with a single fill of five quarts, with no more oil added in six strictly new stock cars, were driven until the motor in each car was destroyed from lack of lubrication. Here are the results: the first oil failed at only 1713.2 miles; others failed in rapid succession. The best of the competing oils went only 3318.8 miles . . . while New and Improved Conoco Germ Processed Oil completed 4729 miles . . . more than 3000 miles farther than the first oil to fail . . . and more than 1400 miles farther than the second best oil! The "Hidden Quart" had proved superior again!

Conoco wrecked these motors to show you which oil has the lowest consumption and true economy. Drive into a Red Triangle Station, drain and fill with this new and improved oil. Whether your car is new or old, you need this extra margin of economy and safety.

TO NEW CAR OWNERS

Some car manufacturers are using new types of bearings which will stand greater pressures and temperatures, resulting from increased power and speed. New and Improved Conoco Germ Processed Motor Oil has been exhaustively tested on these new bearings. The results show that it gives them greater protection against damage than many straight mineral oils now on the market. Protect your new car by using the motor oil you can be sure of.

Martin Puts the Finger on Cavalcade to Cop the Kentucky Derby, Based on His Performance in the Late Months of 1933

BY PHILIP MARTIN

I'm telling you beforehand—don't bet on Philip Martin's selection in the Kentucky Derby! Those who have in the past have become sadder but wiser customers of the bookmakers.

So, with fear and trembling—Cavalcade is the nag!

This horse of the Brookmeade Stable will be the main reliance of the east in the 60th running of the historic classic of the turf. The horse has plenty of breeding, being the favored son of Lance-gave-Hastily.

His early 2-year-old performance was not so startling, but he wound up last year with two impressive wins, one over Singing Wood, a Derby favorite.

Cavalcade has been responding nobly to Derby training, and gives every indication of continuing his brilliant performance during the fall end of 1933. The horse promises to be a smart 3-year-old. And it takes a smart animal to cop the Derby—as all smart horse followers will tell you.

We think he's smart enough to win on May 5.

THE new rulers of the realm of table tennis are a young In-

dianapolis department store clerk who hopes some day to make the footlights as a tap dancer, and a New York girl who upset the ap-plecart at the recent national tournament in Cleveland, O.

The male crown wearer is Jimmy McClure. In winning the national title at Cleveland, Jimmy annexed his 20th diadem so far this year. The rest of his honors came in state and sectional tournaments. The queen is Ruth Aarons.

To gain the throne, these two youngsters unseated Jimmy Jacobson of New York, and June Purves of Des Plaines, Ill., last year's champions.

THE Pacific coast is producing a new crop of swimmers who threaten to wreck all existing records. Among this group is Jack Medina, the University of Washington phenom, who splashed through the recent intercollegiate meet in Columbus, O., to be the outstanding point scorer, and Olive McKean.

Miss McKean is another Washingtonian, hailing from the Washington A. C. of Seattle. In the recent Women's National A. A. U. meet at Chicago, she won the 100-yard free style event, beating Lenore Kight, Homestead, Pa., champion, and tying Lenore's world record of 1:03.4.

Schools entered in the contest were: College of Arts and Industries, Kingsville; Southwest Texas State Teachers College, San Marcos; Stephen F. Austin State Teachers College, Nacogdoches;

Men's Chorus W. T. Leads at Fort Worth

Places Organization First Among Texas Colleges

W. T. again established her supremacy in the world of music when the Mens' Chorus came home winners from the Southwestern District Conference held under the auspices of the Moslah Shrine Temple at Fort Worth May 4 and 5.

Second place, carrying with it a check for \$50 went to the local chorus who were surpassed only by the men's chorus of Oklahoma University, seasoned competitors, and winners of first place in the Missouri Valley Contest for the past three years. Thus, the place won by W. T. carries with it the distinction of placing the local organization first among Texas schools who entered the Southwestern conference.

Professor Wallace R. Clark is director of the chorus, and his daughter, Frances Alice, is accompanist.

Sing Two Numbers

Contest song given by the W. T. chorus was "Lamp in the West," and the optional number was "Shadow March." A general chorus of 500 voices was directed Saturday evening by Noble Cain, director of the choral auditions at the NBC studios at Chicago and considered an authority on men's choral singing in America.

Schools entered in the contest were: College of Arts and Industries, Kingsville; Southwest Texas State Teachers College, San Marcos; Stephen F. Austin State Teachers College, Nacogdoches;

Baylor University, Waco; Texas Christian University, Fort Worth; Abilene Christian College, Abilene; Southern Methodist University, Dallas; and Oklahoma University, Norman, Oklahoma.

Those making the trip were: First tenor—Broughton Hardin, J. L. Hardin, Horace Hickox, Holland McMurray, R. L. Newton, Charlie Wisdom, Carl York.

Second tenor—Lex Alexander, Walter Cummings, Reavis Ker, Ray McEntire, Charles Stratton, Edd Todd, A. M. Jackson.

I've been lookin' fer a whole year fer somethin' extru to compliment Mr. Terry and Mr. Carruth on. Wal, I've got it now—tother nite at the Jr.-Sr. banquet they wuz callin' on to make speeches—and much to the kids delight they never talked, but jest a few minutes, and they really sez somethin' too. You know, I really enjoyed that banquet—the eats wuz good, the programs wuz good, and everybody had a good time. I guess we'll hev to hand it to Miss Clark and Bob Orton fer that treat.

Bill Cone, president of the Senior class, '34-'35! Don't that sound big. Alton Brasuel, this year's president, sez come up to see him sum time. Bill, and he'll tell you how to make yore class as big a success as this year's class wuz. Won't that be somethin'.

I shore wuz glad to see Bill Cone and Hampton Lisle back home to Canyon. You know, I wuz kinda scared they wouldn't get back safe, 'cause there's an insane asylum down at Austin, and I kinda thought they'd detain them there fer further inspection and knowen' those two boys like I do, I'm still puzzled as to how they got by the institution.

I shorely do hate to see you seniors leave, cause I tho't lots uv you. But every time I look at your pictures in the hall, or see them pretty green curtains that you gave the high school, or read yore names that have been scratched on yore desks, I'll think uv you. Goodbye and luck to you.

Don't forget your old pal,

CACTUS CAL.

Program Schedule For Next Year Has Been Made

The high school students will probably have a much easier time next year with their program schedule than did the students this year. Mr. George Terry has been working for the past two weeks, arranging the program for each student, so that next year the students will have nothing to do except check out books.

This is the first time that this has ever been done in advance, and it is hoped that it will prove successful, and that the school year will start off very smoothly without any confusion in changing class schedules.

Five Press Club Members Attend Conference Sat.

Five members of the Press Club attended the Panhandle Press Association conference Saturday which was held May 4 and 5 in Amarillo. The students attended the last session which was held in the Herling hotel.

The main speakers of the morning were: W. W. Holcomb (World's Worst Hick), and H. H. Jackson, state authority on the Graphic Art Code. Mr. Holcomb spoke on "Panning Panhandle Paragraphs." A discussion was led by Mr. Jackson on the problems the members had had in putting out their papers concerning this new NRA code.

The students from the press club were given special recognition as being the only representatives of high school papers.

A barbecue was prepared by the News-Globe staff at Tri-State Fair grounds for the conference. The group from Canyon were invited to the barbecue.

Trip To Austin As I Saw It

(By One Who Went)

The contests began Thursday at noon at Home Economics building of the University. After the contest, we were taken over the Home Ec. building, which is about as large as the administration building of W. T. It is a beautiful building, dedicated to the pioneer women of Texas. Then we were taken on a sightseeing tour.

The contest was continued the next morning. That afternoon we went sight seeing. We went to the insane asylum, but they wouldn't let us in. Well, it's better not to get in than not to get out. We then went through the governor's mansion and met Jim Ferguson personally, which was quite an event to the trip. After meeting him, we got special privileges to go through his home, even if it was after visiting hours.

We then visited the snake farm. There we saw many varieties of snakes, lizards, and alligators. And now for more pleasant subjects.

We went to Barton Springs, which is a beautiful park a short distance from Austin.

The next day we went out to Hogg Memorial Chapel to receive the awards! The only award received was at the first of the meeting, and we waited for about two hours for another award, but no more came. How well we could have spent those two hours in sightseeing!

After we had checked out of the hotel we again attempted to visit the insane asylum, this time with better luck. We went through the various dormitories and climaxed the visit by buying souvenirs from the display room. Following this we started for home. By night we got to Brady. Several interesting things happened that night. Laura Ferne Brian and Miss Brasuel can give the details.

The next morning, we started for home. Sterling City was particularly interesting to Lena Wade Jennings. After a long day's ride, we arrived in Canyon about 7:30 p. m., tired and much happier.

Seventh Grades Picnic at Bourn Farm, April 27

Forty-three seventh graders picnicked at the Bourn farm last Friday, April 27.

The picnic supper consisted of sandwiches, pickles, fruit, cookies, potato chips and iced lemonade. "It was," said Mrs. John Davis, the sponsor, "the nicest picnic I have ever seen."

Mr. and Mrs. O. T. Barker went to the North Plains over the week end.

Ekher Flashes by Sparks and Mate Thomas, Piloting by Pilot Terry and the School Pledge Song closed the program. Music was furnished by Lilla Beth Burroughs, an ex-student of Canyon High School.

The menu was as follows: Mermaids delight, white shark, potatoe boat, bean ruffs, torpedoes, ocean rolls and coral jelly; under the sea salad and sea food; sea foam, ice floes, life savers, and pilot coffee.

Supervisor's Column

Emphasis in the Elementary School for the past week has been placed on the achievement tests. At the beginning of the school year tests were given to all the pupils to assist in properly placing them in their grades, to find out what subjects each pupil needed to be drilled, in what subject special work was needed for each class as a whole, and how the Canyon school stands in comparison with other schools over the country.

The tests that are now being given are a check on these various things. In the fall the tests were graded by the teachers, and these scores have been used throughout the year to assist in planning their work to take care of the weaknesses of the individual child as well as the class as a whole.

The tests now being given will show whether the goal set by each teacher has been reached and satisfactory results obtained. These scores will be used at the beginning of school to place children in homogeneous groups so that teacher judgment will not be the only factor considered in grouping the pupils.

Junior Class Has Class Meeting in Auditorium, Wed.

The Junior class met Wednesday, May 3, with their sponsor, Miss Grace Clark, in the high school auditorium for the joint purpose of nominating candidates for president of next year's class and making plans for the Junior-Senior banquet, Friday, May 5.

Decoration committees were then appointed for the Junior-Senior banquet and the meeting was dismissed after a song had been practiced by the group.

Co-Editors Elect Attend T. I. P. C. Meet at Austin

For the first time in the history of the school, The Eagles Tale was represented at the State Meet of the Intercollegiate League Press Conference by co-editors elect, Bill Cone and Hampton Lisle.

The boys made the trip with Supt. Dillehay of the Hereford High School. They left Hereford at 3:00 Wednesday afternoon, May 2, and arrived in Austin late the following day. Most of Friday was spent in taking notes on talks given by leading journalists of the state on various phases of high school newspaper work and was climaxed by a banquet and dance.

The first half of Saturday was spent in other meetings and discussions, and at 2:15 o'clock the homeward journey began.

Valuable criticism and constructive suggestions of The Eagles Tale as it has been edited during 1933-34 were given the delegates.

They found no other school paper printed in the town paper on display at the conference, and learned that the Panhandle High School Press Association, organized this spring at the instigation of the Canyon High School Press Club was the third of its kind in the state and the only one in this section of the state.

A CHEAT NEVER WINS

It is to be hoped that during the coming final examinations there will be no copying done by any of the student body, because by this time pupils should have learned that it is not the teacher who suffers for the students' cheating, but the student himself.

High schools do not, as a general thing, make use of the honor system. Not until one has reached the maturity of college life is he left to do work under no supervision, with only his "word of honor" as bond.

But, really, that is only a narrow definition of honor system. All through life one is a student, and life itself is based on the "honor system."

College, and, sometimes high schools, are not the only places where the honor system is used. Every living person, at some time or other, is placed in a position where he is responsible to himself alone, and if he fails that trust, he is harming only himself.

PRESS ON SENIORS

"Fourteen years ago a weary world ceased from fighting; over the fields of flanders came a great hush as the guns were stilled."

After that hush came music that mounted to stars, a music made by the shouts of a world gone crazy with joy—for the war was over.

Fourteen years! and still the boys are marching on fighting the battle of peace. Yes, there is much to do!

We must fling from our being the selfish idea that this great country is only for us. As high school students we must press onward from here to higher, nobler things of life. We must work not only for ourselves, but for others.

There are two classes of people in the world the destroyers and the builders. The day of the destroyers is past. The future belongs to the builders. It is they who are marching on, walking the ordinary peaceful ways and making the world a better and happier place in which to live.

Let us who are leaving high school press onward, throwing off the selfish ideals and work to build character, culture, and citizenship.

Forty-Three To Graduate From Grade School

The seventh grade graduation exercises will be held in the high school auditorium at 8:00 o'clock Friday night, May 18.

A cantata, "Rip Van Winkle," will be presented by the forty-three graduates, after which Mr. I. B. Carruth will deliver the address.

Picnic Given By Seven Members of Faculty, Tuesday

Miss Lois Goodrich, Miss Mattie Jordan, Miss Erin Gamble, Mrs. Isabel Cousins, Mr. George Terry, Mr. Aubrey Fox and Miss Thelma Thorpe, of the Canyon public school faculty entertained the remainder of the faculty, and the board of trustees and their wives with a picnic, Tuesday, May 1.

The picnicers assembled at the high school at 5:30. They motored to Cox's farm north of town, but because of the rainstorm were forced to return to the high school building. The picnic supper, consisting of wieners, buns, pickles, potato chips, cookies, fruit, punch, coffee and ice cream was served in the gymnasium. After the supper various games were played.

WHICH GASOLINE ADVERTISING IS MOST SINCERE?

Thousands answer:

What do you and other experienced drivers think of the confusing claims and counter-claims presented in the gasoline ads?

To discover the answer, university psychologists recently made independent surveys in nine Mid-west cities. The results proved that the average motorist wants facts—proved that he appreciates authentic information which helps him select gasoline intelligently.

Naturally, we are gratified that so many car owners voted Phillips advertising as "most sincere." We make no trick claims, we employ no high-pressure salesmanship in print, because we have the following basic facts around which to build every Phillips 66 advertisement:

1. In each ad, we print in

plain figures the definite gravity (or high test) range of Phillips 66 for the month, conclusive evidence which tells you how high the test is. Decide for yourself why others do not publish their gravity figures.

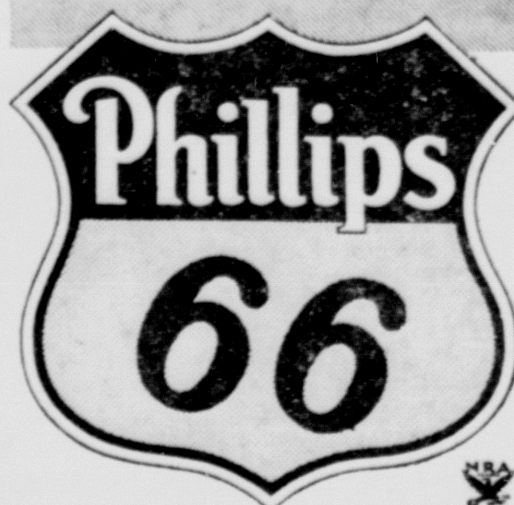

2. Phillips is the world's largest producer of natural high test gasoline.

3. Matching or tailoring gasoline to the weather was pioneered and first offered by Phillips. We call this process CONTROLLED VOLATILITY.

4. We use lead tetraethyl to insure genuinely high antiknock value.

5. We charge nothing extra for high test Phillips 66.

On the basis of these facts, it

is obvious that it doesn't take a mechanic to feel the difference. Once you Phill-up with Phillips at the Orange and Black 66 shield, the way your motor runs is our best advertisement.

ment lien upon the above described property as the same existed on the 22nd day of April, 1930, and at all times thereafter, I did, on the 24th day of April, 1934, at 2:00 o'clock, P. M., levy upon the above described land and premises situated in the County of Randall and

State of Texas, and on the 5th day of June, 1934, being the first Tuesday of said month between the hours of 10:00 a. m. and 4:00 p. m. on said date at the courthouse door of said county in the City of Canyon, I will offer for sale and sell at public auction for cash all

of the right, title and interest of all the above named parties to said suit in and to said property.

of the park next month. A monster celebration is being planned at that time, with a unique pageant of the history of the Plains. The pageant is being written by John Josey, well-known musician of Amarillo.

Colonel E. R. Coppock left Saturday for his station at Fort Sam Houston. A farwell dinner dance was given in his honor Thursday night at the Amarillo Country Club attended by officials and superintendents of the Park and a few citizens. Mr. and Mrs. Clarence Thompson and Mr. and Mrs. Clyde Warwick represented Canyon in the gathering of 30 people.

Captain Thomas C. Harry of Fort Sill, new district supervisor, was here to check Colonel Coppock out and to take charge of the supervision. He will make two trips a month to confer with Captain Stiles and Captain Gibson regarding the welfare of the men in the two companies.

The new telephone line from Canyon to the Park will be completed Friday. The line was built by contributions of the business men of Canyon.

C. R. DeArmond, educational di-

rector, has been transferred to Binger, Okla. Walter Hardin was named last week to have charge of the educational work at the Palo Duro. He states that excellent progress is being made in this line with the men of the camp.

Road Work

lie officials. But the relief office failed to fill the appointment, and curly notified the highway department that there was no such thing as a special appropriation for the drouth stricken district.

Activities were transferred to Austin where all of the record was shown to the new relief administrator to no avail. There was no relief money for road construction in the Panhandle.

The scene was again shifted to Washington where the same program was re-enacted, and all officials agreed that the money had been set up for the drouth district, and that work should be started. Hundreds of dollars were spent in telephone calls and telegrams demanding that action be taken, or that a change be made in the Austin relief office.

and Marvin Jones, National Relief Administrator Harry L. Hopkins telephoned the Austin office that work should be started, and full authority was given to start the program in the Panhandle as agreed upon. Miss Marie Dresden, state administrator, announced that

work would start as soon as possible.

No word has been received in any of the counties as to the set-up which will be followed. Plans for completion of highways had been agreed upon in Washington. Since that time such strict rules have been put in force at Austin that very little work has been accomplished.

Resident Engineer E. H. Gohmert has finally been given a dozen men to fill in the bridges on the Goodnight Trail. This authority was not received until Friday. No attempt could be made at finishing the caliche on the east end of the road or topping the road with the small force which has been allotted for road work.

Under the present set-up, only strict relief is being given at the local office, and unless this is changed the Panhandle will receive no benefits from the special appropriation. It is proposed that if the road work is again blocked in Austin that another mass meeting be held in Amarillo and a delegation appointed to take the matter directly to President Roosevelt in order that he may know that the appropriation which he made has been blocked by the Austin office.

Rev. E. A. Newby Talks To Rotary Club About Ideals

Rev. E. A. Newby was introduced by W. A. Warren to the Rotary Club Tuesday as the new pastor of the First Christian Church. Rev. Newby made a splendid talk on the value of ideals.

"While I am not personally acquainted with Rotary, I have a high conception of the organization because of the type of men whom I know to be members," stated the speaker. He drew illustrations of the worth of Rotary from his acquaintance with other clubs. Classifications in which ideals were prominent were, the ideal home, the ideal school, the ideal church, the ideal American citizen. James A. Garfield was given as one illustration of an ideal American citizen.

Coach Al Baggett invited the Rotary members and the Rotary Anns to the football game Friday night.

Members of the local club who went to the district convention at Abilene were, Vet Ingham, Bob Jarrett, Bill Smith, Irby Carruth, Harry Brown, Burt Newlin, Jesse Barker.
